

# Cutty Sark Social Story

We are going to the *Cutty Sark* in Greenwich.

The *Cutty Sark* is a big ship which has been made into a museum.

Some areas of the ship can be loud and noisy.

There may be a lot of visitors looking around.

Stay with your adult at all times.

There are lots of places to explore and things to play with.

Be careful not to trip and slip on the ship.

## Entrance

Inside the ship, you will find the ticket desk and the shop.

Our teacher will check us in at the ticket desk.

Sometimes this area can be crowded and noisy.

We won't spend too much time here.

## Lower Hold

This space is dark. There are lights and sounds

This is where all of the cargo was kept.

It smells like tea.

## 'Tween Deck

This space has low ceilings. There is sound and music.

This is also where the cargo was kept.

## Main Deck

This space can be cold, windy and slippery if wet.

This is where the sailors spent all of their time.

They would work, eat and sleep on this deck.

## Dry Dock

This space can be loud and has some sound effects.

The café and toilets are also here.

You will find staff members on each level of the ship.

They are there to help people and answer any questions you have.

If I get lost and can't find my adult, I can tell one of the staff.
