

Publishing

Spring 2021

It is with great excitement that Royal Museums Greenwich announces the list of publications planned for spring 2021. The list of books presented in this catalogue showcase world-leading expertise, fascinating stories and beautiful artworks inspired by the sea, ships, time and the stars. Every purchase supports the Museum to help fund research, exhibitions and acquisitions.

We hope you enjoy reading them as much as we've enjoyed producing them.

Stars

Royal Observatory Greenwich
Illuminates series

Dr Greg Brown

There are approximately ten-billion-trillion stars in the entire observable Universe. That's a little more than the number of grains of sand on all the beaches on Earth. But what exactly are stars? How long do they live? How hot are they? The answers to these questions and many more are answered in the first book in a series of accessible guides to astronomy, written by astronomers at the Royal Observatory Greenwich.

February 2021
ISBN 978-1-906367-81-7
£9.99, paperback
109 × 178 mm, 120pp
Categories: Galaxies and Stars; Cosmology and the Universe
Thema code: PGS, PGK

Planets

Royal Observatory Greenwich
Illuminates series

Dr Emily Drabek-Maunder

Since ancient times five planets have been easily visible to the naked eye – Mercury, Venus, Mars, Jupiter and Saturn. This second book in the Royal Observatory Greenwich Illuminates series charts humanity's understanding of our neighbouring bodies, from the first clues established by Galileo Galilei in the 17th century, through to the vast amount we do (and much we do not) know today.

February 2021
ISBN 978-1-906367-82-4
£9.99, paperback
109 × 178 mm, 120pp
Categories: The Sun and Planets; Cosmology and the Universe
Thema code: PGS, PGK

Pirates

Fact and Fiction

David Cordingle and John Falconer

The image of the pirate is one that has never failed to capture the imagination, but behind the melodramatic portrayals of such villains as Long John Silver lies a much harsher reality. This book showcases the National Maritime Museum's vast collection of artworks and artefacts, charting the history of piracy, the popular portrayal of pirates in literature and cinema, as well as examining the tools of the pirate trade – maps and charts, flags and weapons.

March 2021
ISBN 978-1-906367-77-0
£20.00, hardback
230 × 170 mm, 176pp
Categories: Sea Stories, Maritime History
Thema code: FJN, NHTM

About Time Too

A Miscellany of Time

Royal Observatory Greenwich

How old is Earth? How fast can you think? How long is a light year and how short is a femtosecond? What does Greenwich Mean Time mean? Can you tell the time with flowers? When did 'time' begin?

This light-hearted, illustrated miscellany answers these intriguing questions and presents a whole range of amazing facts and figures which show the myriad influences that time has on our daily lives.

April 2021
ISBN 978-1-906367-66-4
£12.99, hardback
172 × 132 mm, 160pp
100 mono line drawings
Categories: Time
Thema code: PGZ

H.G. Wells on Mars

The War of the Worlds
and Other Writings

Introduction by Robert Edwards

To mark NASA's Mars Exploration Program in 2021, the Royal Observatory Greenwich is republishing H.G. Wells's *The War of the Worlds* in its original entirety, as serialised in *Pearson's Magazine* in 1907. This iconic text is accompanied by short stories, articles and notices that inspired Wells before and during the writing of *The War of the Worlds*, offering insight into his views on Martian life.

May 2021
ISBN 978-1-906367-83-1
£12.99, hardback
232 × 148 mm, 256pp
Categories: Science fiction/ Aliens/UFOs;
Literary studies: fiction, novelists and prose studies
Thema code: FLU, DSK

The Solar System

A Cosmic Adventure!

Elizabeth Avery

Are you a super-massive space fan? Great! Let the Royal Observatory Greenwich take you on an adventure through the Solar System and BEYOND! Do you want to find out where you can find rubber-duck-shaped space rocks, ice-spewing volcanoes and raindrops the size of mini marshmallows? Fasten your seatbelts and prepare to have your brain boggled by the amazing world of space science and astronomy!
