

Use these spaces to note down any evidence you find to answer your questions as you investigate the galleries. When you have finished investigating your three galleries you can use this information to answer the overall question.

Tudor and Stuart Seafarers –

Did global seafaring lead to changes in Tudor and Stuart England?

Atlantic Worlds –

Did settlement, migration and enslavement across the Atlantic lead to change in Britain?

Nelson Navy Nation –

Were British seafarers of the 1700s and 1800s diverse?

How has migration and seafaring changed British Society?

Migration, Britain and the World

How has migration and seafaring changed British Society?

Migration, Britain and the World

How has migration and seafaring changed British Society?

You will be investigating a question across 3 galleries.
Working in groups of three find and collect evidence to help you to answer your question.

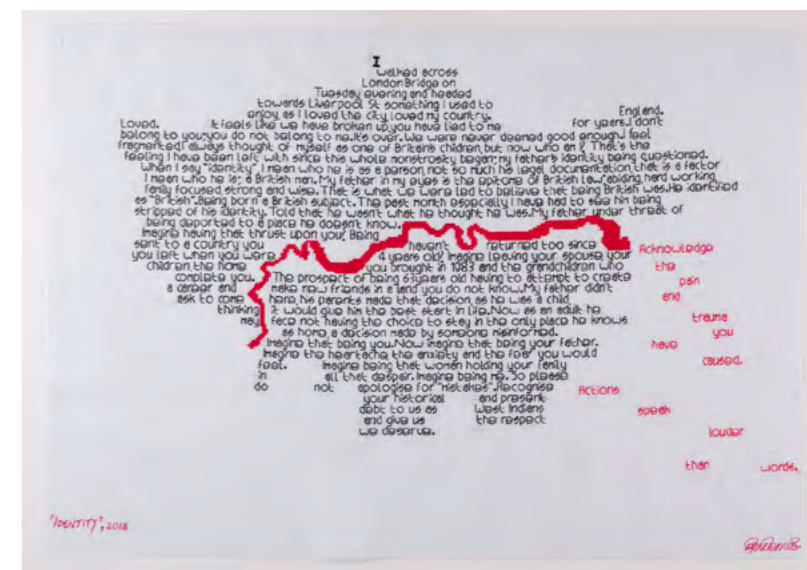

Find in the Gallery -

This is a portrait of three important sailors (Hawkins, Drake and Cavendish). They were involved in exploration, enslavement, privateering and piracy. There is more information about them around the gallery and the consequences of their voyages

Extra Object -

This embroidered map reflects on British identity, racism and government policy in text around the shape of the river Thames. The artist was aiming to challenge the unjust treatment of her father in the Windrush scandal. Out of the river spill the words "Acknowledge the pain and trauma you have caused. Actions speak louder than words". These can be seen as a legacy of Transatlantic Enslavement

Find in the gallery -

Picture of Billy Waters. He was a famous street performer in London and lost a leg while serving in the Navy

Find in the gallery -

Evidence of people who resisted slavery in Britain as part of the Abolition campaign

Find in the gallery -

The goods produced by enslaved people and examples of the wealth this created in Britain

Find in the Gallery -

The section on Dockyards and Sailors lives at sea

Extra Object -

Jodocus Hondius came to London as a refugee 1583. He was a skilled engraver and contributed to projects such as the first sea atlas published in England. Maps and charts like this one were incredibly important to the growth of English seafaring and creating connections around the world. A lot of this knowledge came from migrants and refugees.

Atlantic Worlds -

Did settlement, migration and enslavement across the Atlantic lead to change in Britain?

Extra Object -

This photograph shows the crew of the ship Cawdor in 1893. Ships crews were often diverse with men from different places working together. Port towns were also likely to be diverse as a result

Tudor and Stuart Seafarers -

Did global seafaring lead to changes in Tudor and Stuart England?

Nelson Navy Nation -

Were British seafarers of the 1700s and 1800s diverse?
