

Location: Weather deck

Explore the main deck, find out what life was like for sailors 150 years ago.

Back at school

Discuss how and why trade has changed over time.

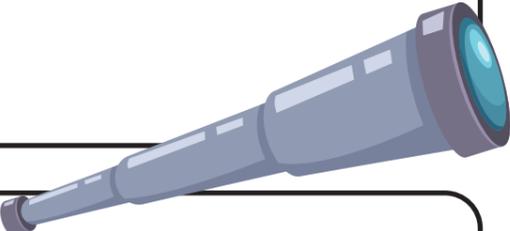

Create a timeline of trade, from Stone Age to now.

Set up a trading market at school - you could offer goods or services. For example - someone could draw a picture of your cat and you could give them a puzzle you no longer want in exchange!

Can you find...

A winch for lifting cargo

A cargo hatch

Use maps to calculate the distance travelled by the goods we trade. What implications does this have:

Price?

Environmentally?

Fair trade?

Availability?

Transport used?

Trade trail (KS2)

Discover Cutty Sark's past as a trade ship! Some questions you can answer by writing, some by telling someone what you think.

Location: Dry berth

Cutty Sark was built to trade tea. **Trade** is the action of **buying** and **selling** of "things" (goods), or, swapping one thing for something else. *Cutty Sark* brought tea from China to be sold to people living in Britain.

What are some of the things you trade today? List some examples in the box above.

How do you think those things we trade get to us?

Let's think about tea. Tea came from China on a ship. What other modes of transport might be used to get goods to us today? Circle your answer/s below

Why do you think these methods of transport are used?

Location: Lower Hold

This is where the cargo was stored. Find the picture which shows how the tea was packed into the ship. **Can you find out how many crates fitted in? How much money was this cargo worth? What does this tell you about trade?** You can investigate this and more by reading, looking at objects and watching the video

What have you discovered?

.....

.....

.....

.....

.....

.....

Worldwide trade of goods is now worth about £230 trillion each year!

Location: Tween deck

Cutty Sark didn't only transport tea. Have a look around and discover what other cargo it carried. You can investigate using the written information, the objects and by looking in some of the drawers.

What goods did *Cutty Sark* trade?
Where in the world were those goods from?

.....

.....

Why do you think these goods were brought to the UK?

Find the globe that show two of *Cutty Sark's* route's. Plot the best route from the UK to Australia on the map below.

Global trade

Trade on the river is not as busy as it used to be – why?

Cutty Sark took the fastest route possible to pick up and drop off cargo.
Why do you think speed was so important?
