

# My visit to the planetarium

I will go through the park to get to the observatory.

Outside the observatory looks like this.

I will go through this gate to get into the observatory.

The people in blue uniforms work here. They are happy to help!

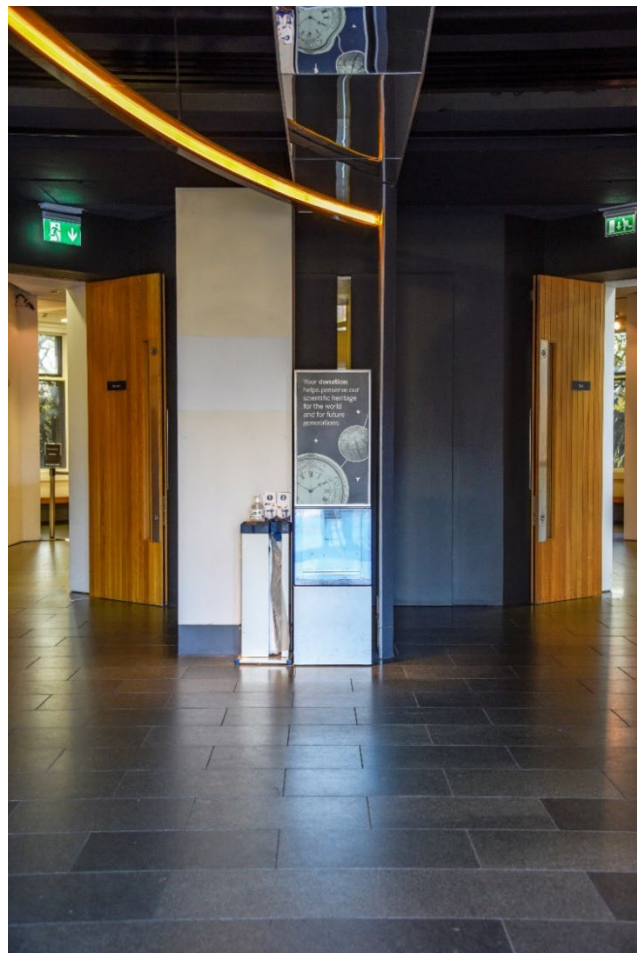

**I will go to this building made of red and yellow brick.**

**First I go to this entrance space.**

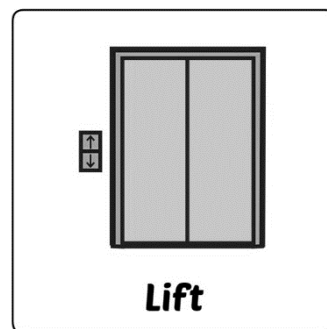

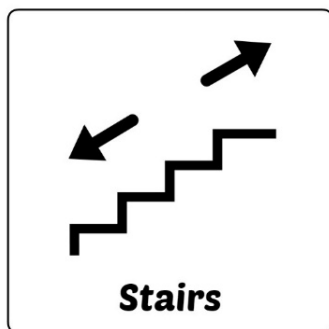

When I go through the entrance space I enter this area.

Then I will go downstairs to floor -1.

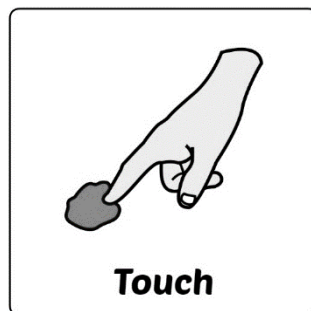

There is a lift and also a spiral staircase.

**At the bottom of the stairs is a meteorite.**

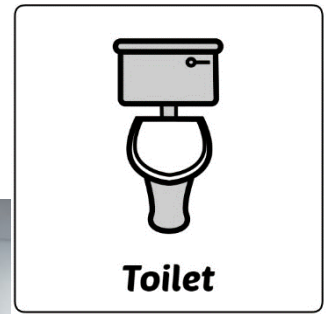

**I can touch this if I want to!**

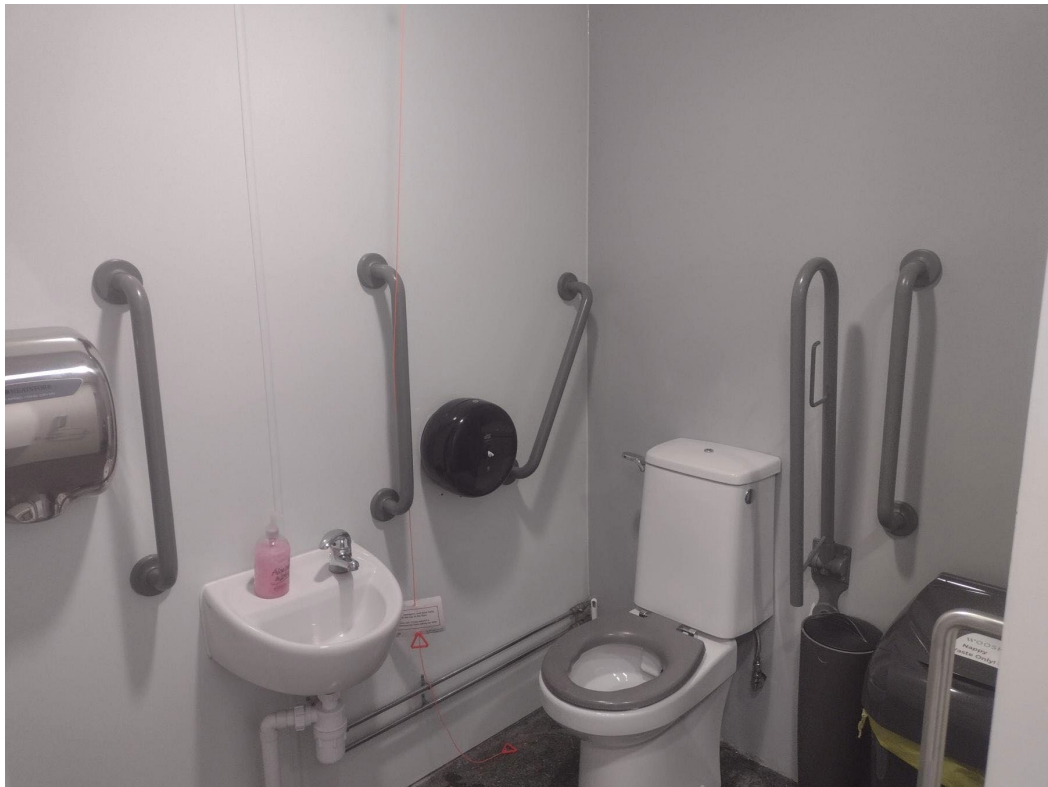

## Toilets

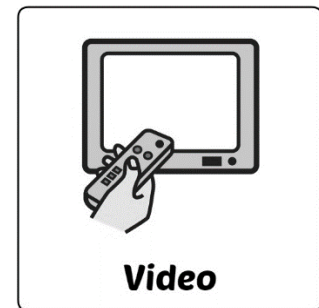

**There's an accessible toilet here.**

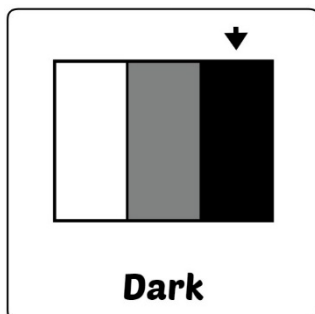

**The nearest changing places facility is in the National Maritime Museum.**

I go through the gallery to get to the planetarium. It has photos and videos playing.

This space is darker but the pictures are brightly lit.

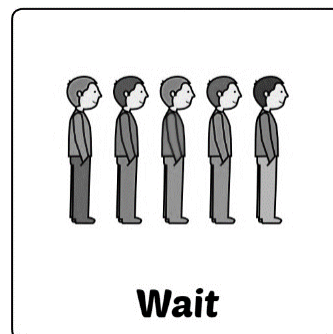

If I don't like the dark I can tell an adult with me.

**Before I go to the planetarium I wait in the planetarium foyer.**

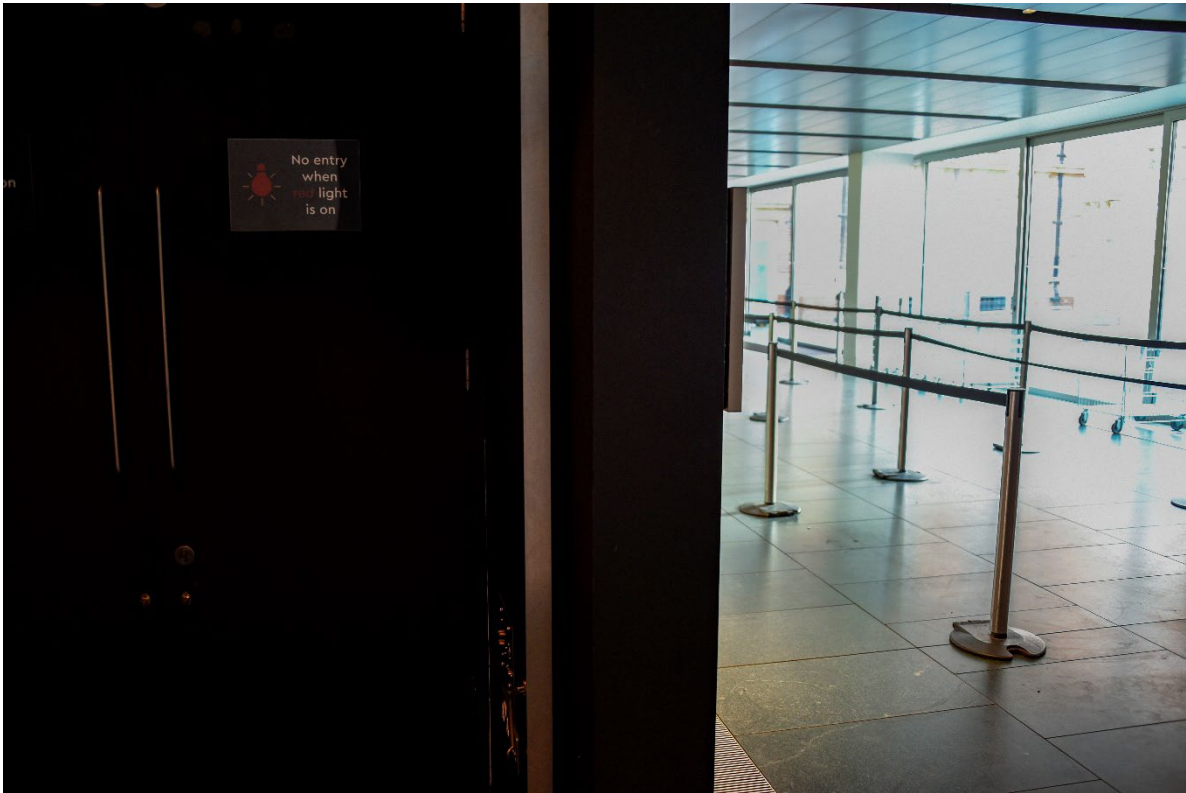

**I will meet a staff member in a blue uniform who will tell me when I can go into the planetarium.**

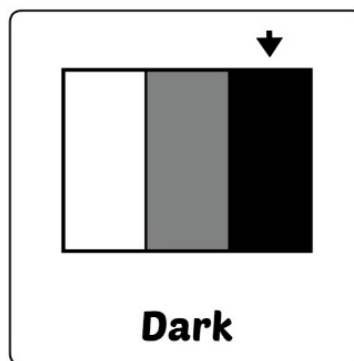

I go through a set of double doors to enter the planetarium.

It's darker in here.

If I don't like the dark I can tell an adult with me.

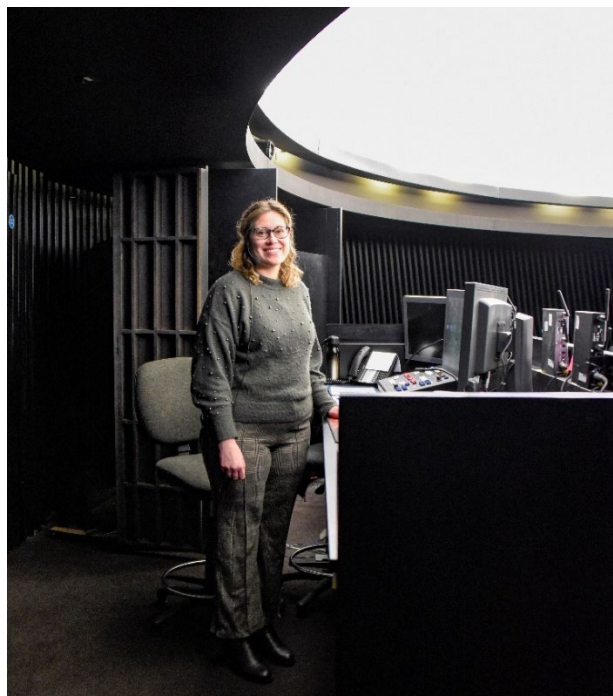

**In the planetarium I will meet a friendly astronomer, who works here.**

**During the show I'll sit in my seat.**

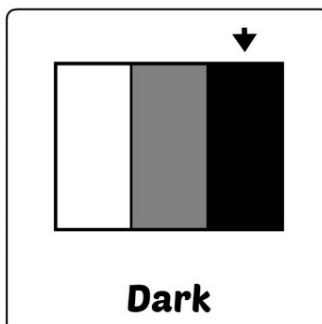

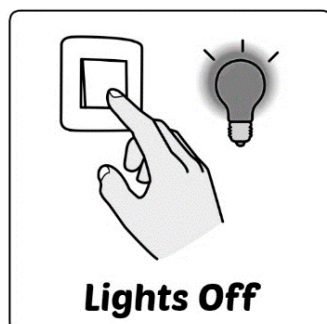

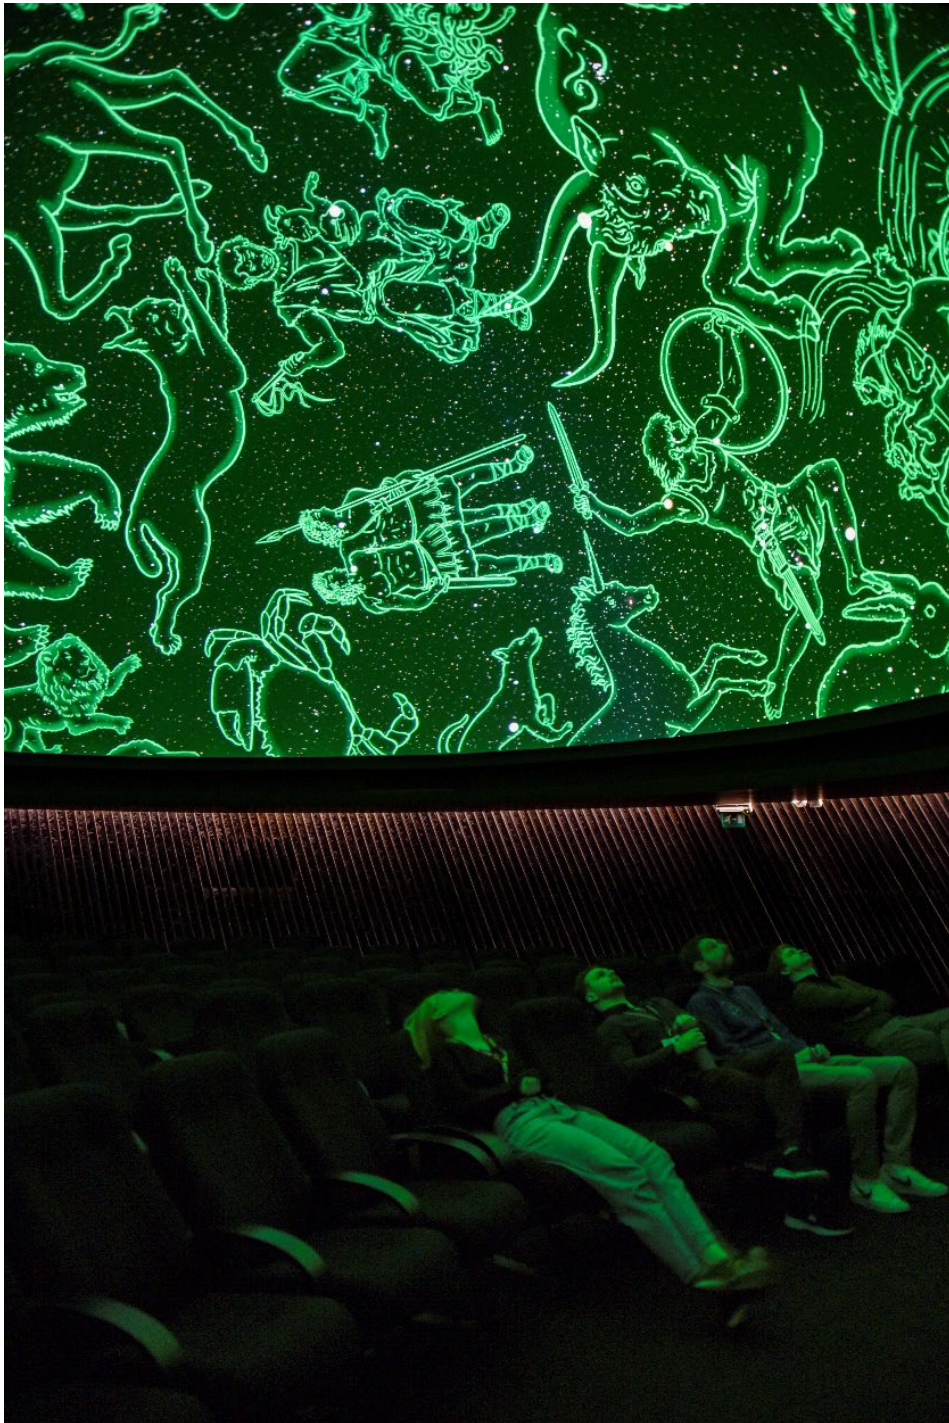

**The astronomer will be at a desk at the back.**

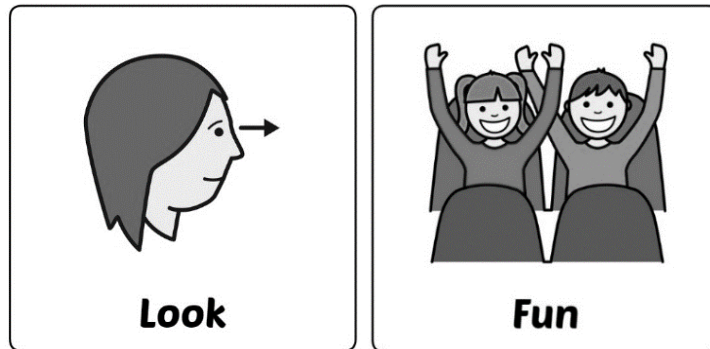

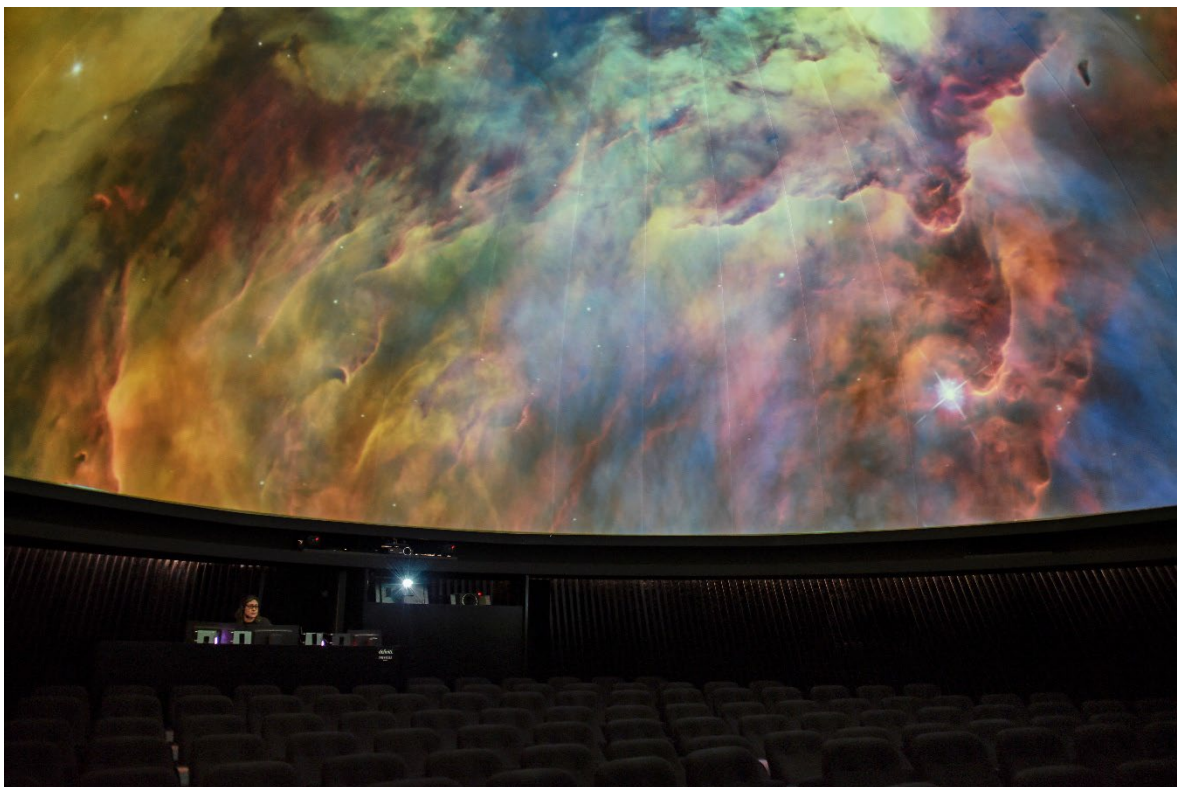

When I'm ready the lights will slowly turn off and the show will start.

**I'll see the night sky, or beautiful pictures of different things  
in space on the ceiling.**

**The astronomer will talk about what we're seeing during the  
show.**

**If I don't like it I can tell an adult with me so we can leave.**
