

ACTIVITY THINGS IN SPACE

LOCATION ASTRONOMY CENTRE

GALLERY ASTRONOMY QUESTIONS, EXPLORES, INSPIRES

You are a space explorer. In this building you will find a lot of space things. What things would you find in space? ///

A rectangular box with a hatched bottom edge. A lightning bolt arrow points to the top right corner of the box.

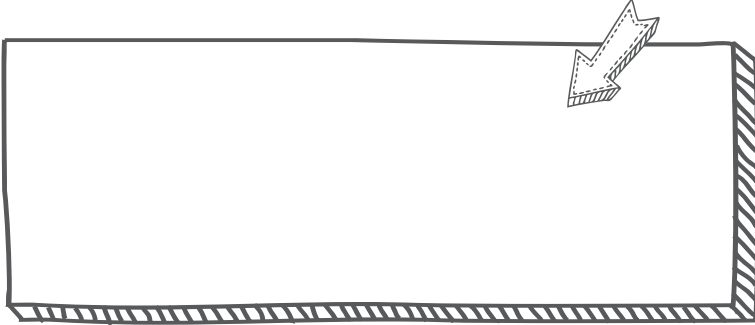

When during the day is the best time to look for things in space? ///

A rectangular box with a hatched bottom edge. A lightning bolt arrow points to the top left corner of the box.

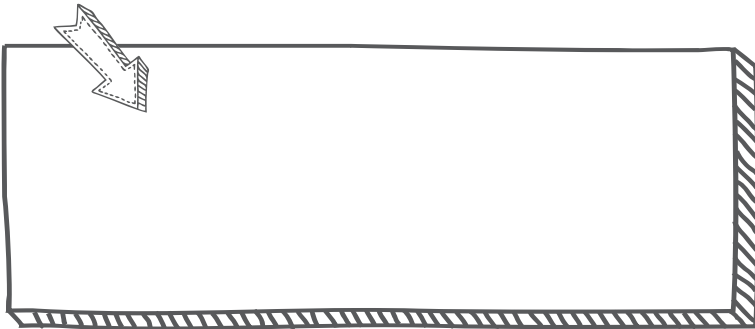

Go into the *Astronomy Questions* room. What space things can you find? ///

A rectangular box with a hatched bottom edge. A lightning bolt arrow points to the top right corner of the box.

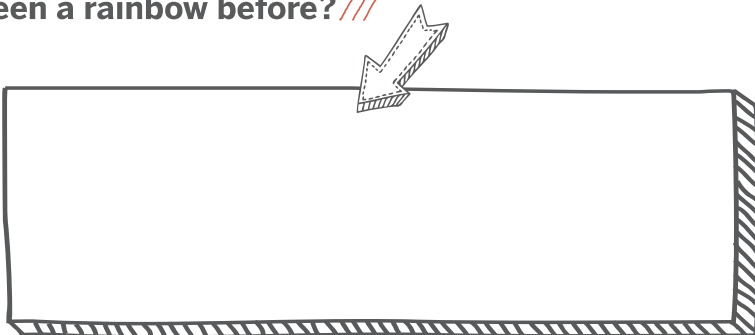

Can you see the mirror? What is unusual about it? ///

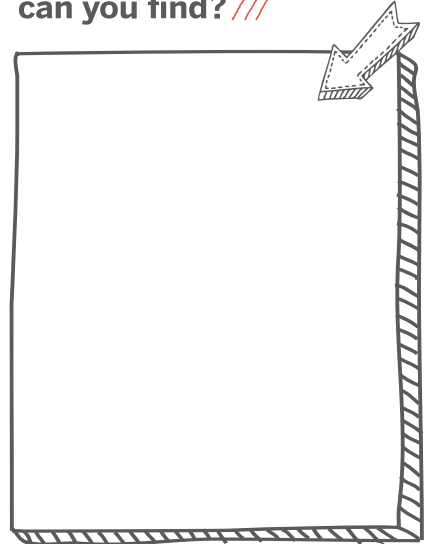

Go into the Astronomy Explores room. Look for the big space rock. This is called a meteorite. Does this look like other rocks you have seen? Why? ///

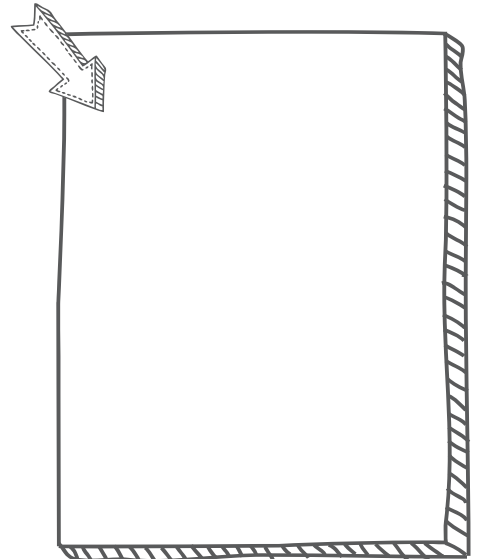

Look for a picture of a rainbow. Where have you seen a rainbow before? ///

What other space things can you find? ///

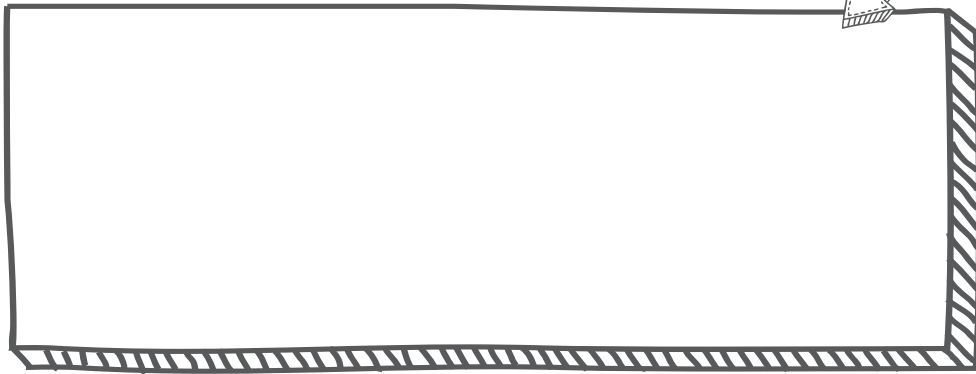

Go into the Astronomy Inspires room. What do you think the video is about? ///

Can you find the picture of the lion? ///

This is a pattern of stars in the sky called Leo. Draw Leo below ///

Can you find the picture of the fish? ///

This is a pattern of stars in the sky called Pisces. Draw Pisces below. ///
